Invitation to the 11. Meeting of the Study Group on Forensic Age Diagnostics

Dear colleagues,

We would like to invite you to the 11. Meeting of our study group. The Meeting will take place on March 14th, 2008 from 1 pm to about 7 pm in the lecture building (building J, see layout plan) of the "Gesundheits- und Sozialzentrum Moabit" (former Moabit hospital), Turmstr. 21, 10559 Berlin.

This year we were able to persuade some of the worldwide leading experts in the field of forensic age diagnostics to speak at our meeting. Therefore we are looking forward to seeing as many of you as possible. Please feel free to pass this invitation on to other people who might be interested.

The programme is planned as follows:

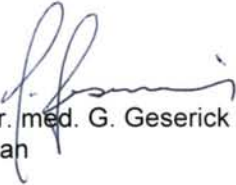

- G. Geserick (Berlin): Introduction
- A. Schmelting (Münster): Analysis of the proficiency test
- C. Verbiest, M. Vandenbruaene (Antwerp): Forensic age estimation in Belgium
- I. Garamendi (Huelva): Forensic age estimation based on thorax pa digital X-ray images: medial clavicle epiphyses fusion and first rib ossification in relation to age
- I. Landa (Bilbao): Application of the Kvaal's method on digital orthopantomograms
- C. P. Campobasso, V. Santoro, A. De Donno, F. Introna (Molise, Bari): Forensic age determination of living individuals in Southern Italy
- R. Cameriere, F. Scarpino, D. DeAngelis (Macerata, Milano): AgEstimation project
- F. Clarot (Rouen): Forensic age diagnostics in France
- L. Matrilie (Montpellier): Age estimation in skeletons
- B. Hirthammer, F. W. Rösing (Berlin, Ulm): Die physiognomische Alterung beim Menschen. Quantifizierung mittels 3D-Laserscanner [The physiognomical ageing in human beings. Quantification by means of a 3D laser scanner]
- T. Solheim (Oslo): Altersschätzungen an Zähnen in Norwegen und Untersuchungen von minderjährigen Asylbewerbern [Dental age estimations in Norway and examinations of juvenile asylum-seekers]
- H. Pfeiffer (Münster): Zur Anwendbarkeit der direktradiographischen Vergrößerungstechnik im Rahmen der Lebensaltersbestimmung an Zähnen [Applicability of direct radiographic magnification for dental age determinations]

- R. Schulz (Münster): Aktuelle Studien zum zeitlichen Verlauf der Schlüsselbeinossifikation [Recent studies on the time course of clavicular ossification]
- Schmeling (Münster): Aktualisierte Empfehlungen für die forensische Altersdiagnostik im Strafverfahren [Updated recommendations for forensic age diagnostics in criminal proceedings]

A registration fee will not be charged.

For administrative reasons please send a short notification via email (andreas.schmeling@ukmuenster.de) or fax (+49-251-83 55 158).

Yours sincerely

Prof. Dr. med. G. Geserick
Chairman

PD Dr. med. A. Schmeling
